Stephen Yun
ACME PCB Assembly
161 Selandia Lane
Carson, CA 90746

Mr. Yun,

I wanted to thank you for the excellent service you provided on our recent PCB assembly project. I was most pleased with your competitive pricing and your quick turn-around time. Also, the quality of the workmanship from the ACME team was first class.

My department routinely has low volume PCB projects requiring assembly from kits that we provide. I was pleased to find your company which is well suited for our volumes, is willing to accept parts kits, and is eager for our business.

I look forward to working with you on our future projects, and I've been recommending ACME to other departments at Micron too.

Best Regards,
