

To Mr. Stephn Yun

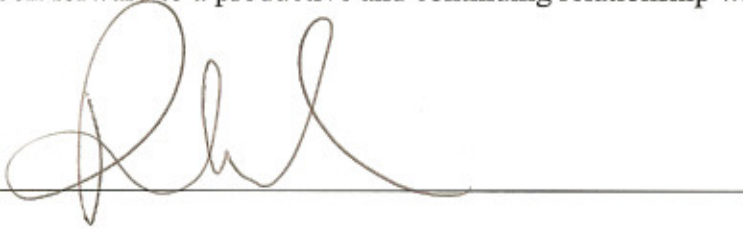

I wanted to say thank you for your commitment and support throughout the many years we have worked together.

You, your team and the entire group within ACME PCB Assembly have adapted themselves to run a high-mix of products with short cycle-time, thus building products Just-In-Time. You and your company are very responsive with our urgent requirements and demands. When there is a need for quick manufacturing services, we can always count on ACME PCB Assembly.

Our long-term relationship stems from ACME PCB Assembly's commitment in offering us flexibility, competitive pricing, quality products and an experienced support staff.

MKS Instrument is pleased to be partnered with ACME PCB Assembly in the manufacturing of our many exciting products.

We look forward to a productive and continuing relationship with our manufacturing partner.

Patrick J. Sackal
